ACKNOWLEDGEMENT

It is my proud privilege to express my profound gratitude to the entire management of IITM Institute for providing me with the opportunity to avail the excellent facilities and infrastructure. The knowledge and values inculcated have proved to be of immense help at the very start of my career. Special thanks to Honorable founder, IITM, for having provided us an excellent infrastructure at IITM. I am also thankful to **Prof.(Dr.) Prerna Mahajan (Director, IITM)** for creating better learning experiences.

My heartfelt gratitude and sincere thanks to my mentor **Mrs. Ruby Dahiya** for her astute guidance, constant encouragement and sincere support for this project work. Also, I am grateful to **Dr. Jyoti Batra Arora** guide for the project, for making me familiar with the intricacies of software development and aiding me in my work with proficient guidance, unfailing encouragement and immense help. I am thankful to all the teaching and non-teaching staff members.

I am also grateful to **TO THE NEW** for providing me with an opportunity to learn from them and do a project of such importance.

I feel pride and privileged in expressing my deep sense of gratitude to all those who have helped me in presenting this assignment. I would be failing in my endeavor if I do not place my acknowledgement.

ABSTRACT

The main objective of this project is to categorize the resources on the basis of topics and managing users according to their interest in any particular topic. Users can rate the resource. Resource can be of two types: Link Resource or Document Resource. One topic can have a large number of resources either Link Resource or Document Resource.

- Provide an innovative and time efficient way of learning.
- Increase the users interest by providing multiple resources related to single topic.
- Reduce paper work and administrative work.
